

Project Initialization and Planning Phase

Date	08 October 2026
Team ID	SWTID-2026-2386
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template)

EduGenie helps students who need to understand, revise and test a topic quickly, but find textbooks too dense and general search results too scattered or too long.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A school or college student meeting a hard concept for the first time	Understand it in simple words with an example	Textbooks and videos assume background I do not have	Explanations are written for experts, not beginners	Confused and discouraged
PS-2	A student with long class notes before an exam	Revise the important points quickly	Reading and shortening the notes takes hours	There is no quick way to pick out the key points from my own material	Stressed about time
PS-3	A student who wants to check how well I understand a topic	Practise with questions on exactly that topic	Question banks do not cover my notes or my exact topic	Writing good multiple-choice questions myself is slow	Unsure of my level
PS-4	A self-learner starting a new subject such as SQL	Know what to learn first and what comes later	I do not know the order of topics or good resources	Search results are scattered and not organised by level	Overwhelmed
